WELCOME

Dear Colleague

SELECTBIO is pleased to bring you our show schedule for 2017. Within this you will find details of our conferences across Europe, North America, India and Asia Pacific.

Focusing on the hottest topics within life science, drug discovery and diagnostics, our conference portfolio provides focused environments with high quality attendees and excellent networking opportunities.

The sponsorship opportunities offered at all SELECTBIO conferences enable you to showcase your company and products to key decision makers and leading scientists from your marketplace.

We look forward to hearing from you soon.

Best regards,

MANAGED EVENTS

Did you know that SELECTBIO now offers a Managed Events Service?

This draws on the know-how gathered from SELECTBIO's already successful portfolio of events. If you already organise events, or intend to organise one in the future, experienced help is available!

In previous years we have organised conferences for the Flow Chemistry Society, The International Society of Chemical Biology as well as various interest groups and scientific institutes.

Flexible Event Management

Our friendly, specialist team has over 10 years' experience in running events across the globe. Whether it's large or small - from conferences, training courses and exhibitions to awards ceremonies - we can assist.

The Personal Touch

A dedicated event manager will oversee and work with you to deliver the right results, from finding the perfect venue, negotiating best rates and sourcing speakers.

“*SELECTBIO helped us with the organization and delivery of Metabomeeting 2014 in The Royal Institution, London. The result was great and the meeting a huge success. One thing I liked was their eye for detail, openness and professionalism from the initial discussions through to the delivery of the meeting. I found the experience a very pleasant one as they took most of the hassle out of meeting organising.*”
